

FUTURARC PRIZE 2020

**FUTURARC
PRIZE 2020**

ASIA'S LEADING DESIGN COMPETITION

FuturArc Prize offers a platform to both professionals and students who are passionate about the environment, to capture visions of a sustainable future through the force of their imagination.

BRIEF: FuturArc Prize 2020 asks how an Asian city might restore a *human-nature* balance—what co-existence and partnership with nature looks like. More than just adding greenery and water, this task is about evaluating the loss of ecosystem services, and proposing new networks that will invite nature back by integrating natural and urban systems.

ABOUT FUTURARC COMPETITIONS

First launched in 2007, **FUTURARC PRIZE** (www.futararcprize.com) aims to encourage and generate forward-thinking, innovative design ideas for Asia and its sustainability. For more than 12 years, the competition has reached out to thousands of professionals and students from the region and beyond to propose sustainable ideas based on different challenges in each cycle.

FUTURARC GREEN LEADERSHIP AWARD (www.futararcgreenleadershipaward.com) was launched in 2009 to seek out ecologically responsible buildings in Asia, recognising the team behind a completed project who has collectively raised the bar of what a Green building is in Asia. Projects are judged on how the project delivers specific, measurable outcomes, based on the criteria of resilience; wellness; embeddedness; ecosystems; and replicability.
