About the “Milano Salone”

The Milano Salone, a common name for the International Furnishing Accessories Exhibition, is a furniture fair held annually in Milan. It is the largest trade fair of its kind in the world. The exhibition showcases the latest in furniture and design from countries around the world. It is considered a leading venue for the display of new products by designers of furniture, lighting, and other home furnishings.

It was launched in 1961 with the aim of promoting the export of Italian furniture and interior products. The exhibition becomes “international” from 1967, and has been called “SaloneSatellite” from 1998 on. There is a voluntary exhibition by young designers who passed the advance screening, which became to be known as a gateway to becoming a successful designer. After the 90’s, there are more and more voluntary exhibitions held in Milano during the Milano Salone. These exhibitions started to attract the concerned parties who gather to Milano Salone, which became to be called the Fuori Salone, meaning “outside of Salone”. Today,

Fuori Salone is held all over Milan, from where many famous designers are born.

Besides that, all kinds of exhibitions, not only referring to furniture, are held in the city, where companies make promotion by collaborating with famous architects. Recently, it is called “Milan Design Week”, putting Milano Salone and Fuori Salone together. “Milan Design Week” attracts over a million people, which makes it the best design festival in the world. The up-coming Milan Design Week is from April 20 to 26, 2020.
