Since 1887, AIA has relied upon a committee of experts to help draft and update Contract Documents. Join us to explore important 2017 revisions to the AIA A201 design-bid-build family of documents, including the owner-architect and owner-contractor agreements. You'll get insight into AIA's revision process and learn how the revisions will impact your practice, project team members, owners, and building occupants. Don't miss a special highlight on how you can use the new Sustainable Projects Exhibit to enhance the health, safety, and welfare of building occupants.
