Friday, June 22, 2018

7:00am - 8:00am (EDT)

The New School, 65 W 11th Street: Wollman Hall

[65 W 11th Street, New York, NY 10011](http://maps.google.com/maps/?q=65%20W%2011th%20Street%2C%20New%20York%2C%20NY%2010011)  (<http://maps.google.com/maps/?q=65%20W%2011th%20Street%2C%20New%20York%2C%20NY%2010011>)

DESCRIPTION

You practice in a time where issues of efficiency, sustainability, and access to the built environment are increasingly critical. Did you know that emerging tools and techniques allow you to explore ideas rapidly and enhance engagement with clients, consultants, and builders? Join us to review the programming "dashboard" as data engine and visualizer, tools for virtual and alternative reality, forms of virtual reality that are interactive across a project group, and computational design techniques that allow for integrated work between builder and architect. As you face new pressure to re-conceptualize how you design, document, and build, this session will give you some of the tools you'll need for success.
