2:15pm - 3:15pm (EDT)

Javits Center: Booth 4778

[W 35th Street & 11th Avenue, New York, NY 10001](http://maps.google.com/maps/?q=W%2035th%20Street%20%26%2011th%20Avenue%2C%20New%20York%2C%20NY%2010001) (<http://maps.google.com/maps/?q=W%2035th%20Street%20%26%2011th%20Avenue%2C%20New%20York%2C%20NY%2010001>)**DESCRIPTION**

Which louver is best for the weather and climate conditions of your next building? Depending on region, application, code specs, and other factors, the right type and size of louver will vary from project to project. Join us to learn how to confidently select and size ventilation louvers by reviewing louver basics, components, options accessories, considerations, and sizing methodologies. As you'll see, certain tests and standards are very effective in informing selection, especially regarding the use of wind-driven rain (WDR) and hurricane louvers. Learn all about these tools and become a louver expert!
