CE Theater A: Booth 5078

[W 35th Street & 11th Avenue, New York, NY 10001](http://maps.google.com/maps/?q=W%2035th%20Street%20%26%2011th%20Avenue%2C%20New%20York%2C%20NY%2010001) (<http://maps.google.com/maps/?q=W%2035th%20Street%20%26%2011th%20Avenue%2C%20New%20York%2C%20NY%2010001>)**DESCRIPTION**

Insulated metal panels (IMPs) can be the secret weapon of great commercial and industrial buildings. The advantages of these lightweight composite exterior wall and roof panels are most evident in large-scale projects, providing efficiencies that increase with scale. Their superior insulating properties provide energy-efficient insulation, while their lightweight construction offers durability and cost-effective, timely installation. Join us to explore the variety of design options that IMPs present. Plus, take a deep dive into appropriate support structure, installation, function, code compliance, and warranties.
