2:15pm - 3:15pm (EDT)

Kemper System America: Booth 5003LL

[W 35th Street & 11th Avenue, New York, NY 10001](http://maps.google.com/maps/?q=W%2035th%20Street%20%26%2011th%20Avenue%2C%20New%20York%2C%20NY%2010001) (<http://maps.google.com/maps/?q=W%2035th%20Street%20%26%2011th%20Avenue%2C%20New%20York%2C%20NY%2010001>)**DESCRIPTION**

Sometimes code requirements can seem arbitrary. Understanding the science behind them will make your job exponentially easier-and, of course, will ensure that your systems are effective at staving off air and moisture.

So how do you pick the system that's best suited for your project?

Join us for an in-depth look at the performance standards, testing, and codes relating to air barrier systems. You'll learn about the 2015 IECC code requirements and NFPA 285 requirements. Come away with a better understanding of air barrier systems and the benefits they provide.
