12:30pm - 1:30pm (EDT)

CE Theater C: Booth 4478

[W 35th Street & 11th Avenue, New York, NY 10001](http://maps.google.com/maps/?q=W%2035th%20Street%20%26%2011th%20Avenue%2C%20New%20York%2C%20NY%2010001) (<http://maps.google.com/maps/?q=W%2035th%20Street%20%26%2011th%20Avenue%2C%20New%20York%2C%20NY%2010001>)**DESCRIPTION**

How do you communicate your needs to project partners? If you work with architecturally exposed structural steel, you understand the challenge of articulating your expectations for appearance while making sure the material holds to budget, quality, and structural integrity standards. The category system implemented in the AISC Code of Standard Practice contains these expectations and should be utilized on any AESS project. Join us to learn how and when to implement the AESS category method to effectively communicate the desired appearance for AESS projects. Plus, see how to improve your projects by efficiently conveying your expectations in a language contractors can understand.
