WoodWorks: Booth 865LL

[W 35th Street & 11th Avenue, New York, NY 10001](http://maps.google.com/maps/?q=W%2035th%20Street%20%26%2011th%20Avenue%2C%20New%20York%2C%20NY%2010001) (<http://maps.google.com/maps/?q=W%2035th%20Street%20%26%2011th%20Avenue%2C%20New%20York%2C%20NY%2010001>)

DESCRIPTION

A new trend in office construction finds developers investing in timber designs. Learn how wood construction can accommodate the space and performance needs of office occupancies, while providing advantages such as speed, cost savings, and reduced environmental impact. This presentation answers the ...'how" questions of design, examining the potential for both light-frame and heavy timber structural solutions. Topics include fire and life safety design, cost-effective structural layout, acoustics, and aesthetics.
